

# Photoshop CS5 / Bridge CS5 – PDF Slide Show

- ⊙ Instructions for Photoshop CS5 (PC or Mac), though most applies also to CS4
- ⊙ The PDF Slide Show component of Photoshop was moved from Photoshop CS5 into Bridge CS5
- ⊙ This Slide Show preserves **Adobe RGB (1998)** color space, whereas PowerPoint mangles color
- ⊙ Photoshop is NOT needed to view the slideshow, instead just a PDF reader such as Adobe Reader

1) Create a folder of resized & compressed JPEGs (1024x768 pixels for projection, 1680x1050 pixels for higher res monitors; images need not be named in numerical order as in past

2) **PDF Slideshow** NO LONGER is listed under **FILE** menu → **Automate** → **PDF Presentation**

- INSTEAD: **File** Menu → **Browse in Bridge**
- OR: open **BRIDGE CS5** on your own initiative

3) **BRIDGE CS5** – window at center on bottom

- **CONTENT** window → locate your folder of images → open your folder
- thumbnails of your images distribute across **Content** window
- you may redistribute images by clicking & dragging into new positions
- you must select individually (*Command/Control* + click each), or highlight, or select All (*Command/Control* + A) of the images you wish for the slide show, which then will appear in the **PREVIEW** window

4) **BRIDGE CS4** – window on *right*

- **OUTPUT** tab at upper right corner → scroll down to **Output** (*Command/Control* + F4)
- select **PDF** icon on left (not **WEB GALLERY** icon on right)
- *Template*: scroll to *Maximum size* or to *Custom*
- to *Save Custom* template, *Click* “Save” icon between *Template* pull-down menu & *Trash* icon → **Save Template**, name it *1024x768* (or: *1680x1050*, etc) → **Save**

5) **Document** section

- *Page Preset*: *Custom*
- *Size*: *Custom*
- *Width*: *1024 pixels*
- *Height*: *768 pixels*
- *Quality*: *72 ppi* or *96 ppi*
- *Quality Slider*: *60* (or *70* or *80*)
- *Background*: *Black*

6) **Layout** section

- *Columns*:*1*; *Rows*: *1*
- un-checkmark: *Rotate for Best Fit*
- checkmark: *Repeat One Photo per Page*

7) **Overlays & Header & Footer** sections

- leave un-checkmarked & blank

8) **Playback** section

- checkmark: *Open in Full Screen Mode*
- un-checkmark: *Automatic advance to the next page*
- checkmark: *Loop after Last Page*
- *Transition*: *Box*
- *Direction*: *Out*
- *Speed*: *Medium*

– continued on next page –

9) **Watermark** section

- leave blank

10) checkmark: *View PDF After Save*

11) click **Save**

12) **Save As** dialog box

- *File name (Mac: Save As): Whatever.pdf*
- *Save in (Mac: Where): scroll to Desktop*
- click **Save**

13) images are processed; then *PDF* folder loads to desktop; after long pause, slideshow opens

- if does not open in **Slide Show** mode, in **ADOBE READER: Window** menu (or **View** menu) → **Full Screen View**

14) (Mac only) **Full Screen** dialog box → checkmark *Remember my choice*, then choose **Yes**

15) to navigate while viewing in **ADOBE READER:**

- FORWARD: *Left-Click* mouse or *Right Arrow* key
- REVERSE: *Right-Click* mouse or *Left Arrow* key
- EXIT slide show: *ESC* (escape) key
- RETURN to slide show: **Window** menu (or **View** menu) → **Full Screen View**

16) or return to **BRIDGE CS5** to view in **BRIDGE:**

- **View** menu → **Slideshow Options** for further tweaking
- **Slideshow Options** dialog box opens
- select your options, then click **Play**
